Year 6 Swimming Report 2025/26

Question:	**Stats:**	**Further context** **Relative to local challenges**
What percentage of your current Year 6 cohort can swim competently, confidently and proficiently over a distance of at least 25 metres?	34%	Leisure centers only offering 2 week intensive courses. A high proportion of Haseltine pupils are starting swimming lessons from non-swimmer level. All children have made really good progress from a non-swimming starting point in many cases. We have looked into Top swimming with the leisure center and booking slots has been extremely challenging, as well as expensive, in time, more so than funding. Further staffing challenges to get children that have not passed the national standards to the center has meant that this option has not got off the ground. We have continued to promote free swimming lessons during the holidays on our school newsletters.
What percentage of your current Year 6 cohort can use a range of strokes effectively [for example, front crawl, backstroke, and breaststroke]?	34%	See above.
What percentage of your current Year 6 cohort are able to perform safe self-rescue in different water-based situations?	93%	This percentage maybe higher and needs to be clarified due to the expectations by the swim coaches. Due to swim lessons taking place in year 4, many of the children have continued to learn these skills, whether on holiday or during other leisure swim times.
